>>> FIRST TRANSATLANTIC 2M CONTACT <<<

Beginning on 26 June and continuing until 4 July, two groups of amateurs will attempt to make the first transatlantic 2-way contact on 144 MHz and win the Brendan Trophies (<http://www.irts.ie/brendan.htm>). The group in Scotland (led by Bill Ward, GM0ICF) will be signing 2S0ICF/p from the lighthouse at Ardnamurchan Point, while the group in Canada (led by Paul Piercey, VO1HE) will be signing VO1AA from Cabot Tower, the site where Marconi received the first transatlantic signal in 1901. They will operate on +/- 144.075 MHz at 15-18 wpm CW. One station will call the other for a 15 minute period then, if no contact is made, the other station will call for 15 minutes. All on-air operations will be recorded electronically. Operating times will be between 12.00 and 20.00 UTC daily for the entire period, but most likely not the entire 8 hours per day. "We encourage stations on both sides of the Atlantic to join us in this attempt", Paul (VO1HE) says, "either to make contact with us or give us propagation reports". You can send your reports to Paul at volhe@rac.ca [TNX VO1HE]
